WE MAKE IT *personal*

Personalised workwear is a fantastic way to showcase your brand. It increases your brand's visibility, creates a cohesive aesthetic, and adds instant style and professionalism to your team uniform. Our experts provide a range of options to help make your uniform vision a reality.

SJ STUDIO

Our team of uniform curators and designers are at hand to create a custom uniform solution tailored to your brand. We can provide a styling service, bespoke design consultancy and digital style presentations to wow your team and clients.

LOGO EMBROIDERY

Logo Embroidery is an excellent choice when branding a uniform as it will withstand the wash-and-wear that uniforms require better than other logo applications.

SCREEN PRINTING

Screen printing involves the use of fine mesh screens that are etched with the logo or design. The colours and tones are then applied to the garment using one colour at a time. Screen printing is known to soak into the garment. This option works best with non-textured fabrics.

HERE'S WHAT THEY SAID

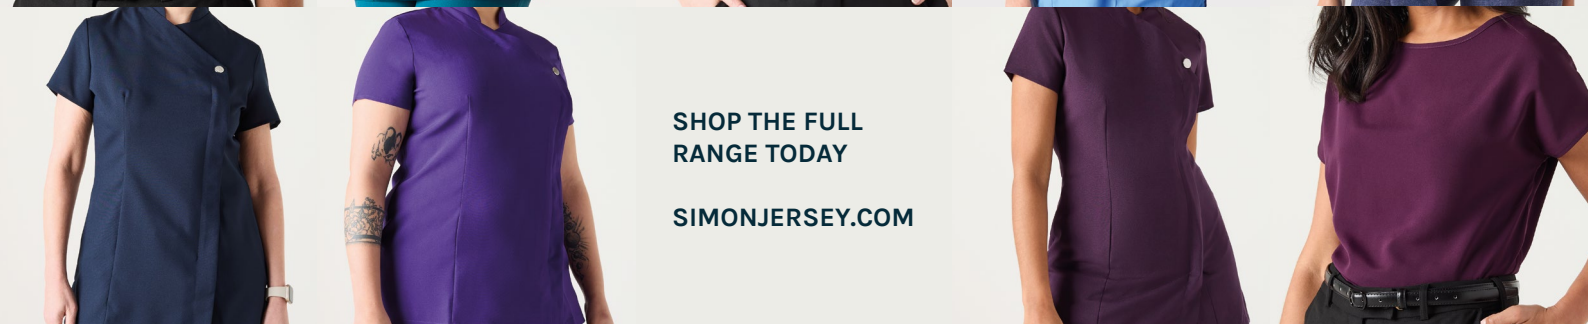

"We have used Simon Jersey for our team uniforms for the past 2 years and can only say positive things, from the great customer service from our account manager through to the quality of the uniforms. The turnaround time is always quick, and we feel cared for and that nothing is too much trouble. The wide range of styles available gives us so many options but the style we chose receives so many compliments with our customers wanting to purchase the same uniforms we have for our team. As a multi-national company, we want to ensure the best first impression for our customers and Simon Jersey's uniforms never fail to deliver with this".
